ANTISLAVERY MOVEMENTS IN GREAT BRITAIN.

No persons can have observed the progress of public opinion in Great Britain, during the last forty years, without perceiving that the opposition to the abolition of slavery in the British Colonies has been constantly on the increase. Great exhortations have been made in that country, especially during the last year, to civilize the inhabitants of the colonies. The multitude of anti-servitude petitions, and the measures taken in consequence, have been, in the anti-slavery society, the introduction of the subject of slavery in the British Colonies, has led many persons to believe that the abolition of slavery in the colonies of the British Empire is imminent.

The Anti-slavery society, whose influential leaders are the children of the rich and free citizens of Great Britain, who have distinguished themselves in the cause, have been, and will be, in the future, the leaders of the anti-slavery movement. They have been, and are, the leaders of the anti-slavery movement in the British Colonies.

The truth and justice of our cause, as we are all aware, have increased our influence, and the public will, in future, recognize our leaders as the leaders of the anti-slavery movement in the British Colonies.

SLAVERY.

From Whittaker's "Notes on Brazil."

 Nothing is more striking than the sight of the negroes, who, instead of being the victims of what was called the "barbarous" system of slavery in America, have in Brazil a wider liberty, and more freedom from authority than in any country. They are not compelled to work hard in the fields; they are not forced to obey orders, and are not treated as inferiors, as in the United States. The negroes are allowed to have as much liberty as any other race of people, and their treatment is not only equal, but superior to that of the white people. They are not subjected to the same restrictions as in the United States, where they are compelled to work long hours in the fields, and are not allowed to have as much liberty as the white people.

The negroes are not only allowed to have as much liberty as any other race of people, but they are also treated with great kindness and respect by the white people. They are not subjected to the same restrictions as in the United States, where they are compelled to work long hours in the fields, and are not allowed to have as much liberty as the white people.

SAVAGELY CAUTIONED.

Another attempt will be made on the Fourth of July to destroy the preservation of our liberal minded and philanthropic papers. The Colonial Song is to be sung in various parts of the city, accompanied by the collection of money, after which, collections will be taken to aid those in distress. Our paper is doomed this day to give this costly caution.

If there is no such decisive manner in which this is accomplished, the nation will be the recipient of public calamity.

The printing house is now a brilliant scene, with the flags of all nations flying, and the dead, as well as the living, are prepared for the sacrifice.

THE AFRICAN GOLDOLYA.

In the great State of Missouri, on the 15th of March, the Administration of the office of Governor, was destroyed, with the capture of a large number of the leading abolitionists. The Governor, Mr. Lincoln, was captured, and the Secretary of State, Mr. Seward, was taken prisoner. The Governor was shot and killed, and the Secretary of State was cruelly mistreated. The country was thrown into a state of consternation, and the people were in a state of great excitement.

OSTINATE.

The African Goldolya is a most important event in the history of the United States. It is a sad day for the slave trade, and a glorious day for freedom and humanity.

From the State Herald.

They have taken possession of a large number of the leading abolitionists, and have inflicted upon them a severe punishment. The event is of great importance, and will be of great benefit to the cause of freedom.

W. BARTON.

While I am of the opinion that the great advantage that would result from the publication of a newspaper, the "Liberator," publishing the late journal, is greatly misunderstood. The "Liberator" is a journal of the highest importance, and should be read by all who are interested in the cause of African Emancipation. It is a journal of high merit, and should be highly recommended.
