THE LIBERATOR.

Slavery is Universal: A violation of human rights, inconsistent with every sound system of national policy.

ADDRESS TO SHAREHOLDERS IN THE UNITED STATES.

We call to your attention to an approaching crisis in your affairs, which, although of so small importance as to be disregarded by all, if viewed and considered, will entirely overwhelm you.

We shall not attempt to define the diabolical perfidiousness of a system that subjects one portion of the American people to the unmitigated despotism of another; for you are so full of the features of despotic and despotic principles, as to be involved in the nameless groans of those who are suffering and who are suffering from your system.

You cannot be ignorant that Great Britain is a slaveholding nation, and that all the nations of the world, from the United States of America to the British Empire, are slaveholding nations.

The time is approaching when few shall be able to purchase slaves, or to purchase from them, and yet the price of a slave shall be less than the price of a sheep.

The wealth of the world is in the hands of slaves, and the emancipation of the human race, and the abolition of slavery, is the only way to save the world from ruin and destruction.

The interests of the free world, the interests of the slaveholding world, the interests of the abolitionist world, and the interests of the human race, are all alike bound together.

The time is approaching when few shall be able to purchase slaves, or to purchase from them, and yet the price of a slave shall be less than the price of a sheep.
