Our country is the world,—our countrymen are mankind.

[Saturday, July 9, 1831.]

INCENTIVE TO REBELLION.

The following extract will be found in the London newspapers, and is an exact translation of the demand made by the Pelew Islanders on the Governor of the East India Islands, Mr. MacArthur: "We demand the immediate evacuation of the Pelew Islands by the English government. We have no desire to quarrel with the English, but we are determined to assert our rights as native inhabitants of the islands. We have never been subjected to English rule, and we will not submit to it. We demand the immediate withdrawal of all English troops from the islands, and the establishment of a native government, with the right of the inhabitants to elect their own representatives. We will not withdraw from our demand until our rights are respected."

COLLEGE FOR THE PEOPLE OF COLOR.

By our last, a University, of the middle system, for the education of colored youth, was a subject of frequent discussion. It had been long a subject of conversation among friends, but now, owing to the increasing numbers of colored youth, the subject has become more pressing.

The idea of a University for colored youth is one that has been long entertained. It is a subject that has been frequently discussed, and it is now becoming a reality. The idea is not new, but it is now becoming more pressing.

The object of such an institution would be to provide for the education of colored youth, and to give them an opportunity to receive a sound education. It would be a step in the right direction, and it would be a great benefit to the community.

The establishment of such an institution would be a step in the right direction, and it would be a great benefit to the community. It would be a step in the right direction, and it would be a great benefit to the community.

The establishment of such an institution would be a step in the right direction, and it would be a great benefit to the community. It would be a step in the right direction, and it would be a great benefit to the community.
FLOWS AND SORROWS IN SICKNESS, BY REV. MRS. B.,

Dear Sir,—We have had the additional pleasure of receiving your work in a lithographed edition, under the direction of Mr. T. M. T. and Mr. H. H. Williams, the last named being the artist. It is an excellent work, and we are pleased to say that it is in every respect a success. The illustrations are clear and distinct, and the text is printed in a neat and legible type. The work is well bound, and we have no hesitation in recommending it to all who are interested in the subject of education.

Yours truly,

JOHN BURGESS.

No. 1, Columbia, happy land.

JOHN BURGESS.

THE AMERICAN.

WE believe that there is a great deal in education which is very important to the welfare of the country. We believe that it is the duty of every citizen to be educated, and that it is the duty of the government to provide for its citizens the means of education. We believe that the government should support schools, and that all the people should be taught to read and write.

Yours truly,

JOHN BURGESS.
