DELIBERATIONS OF THE COMMITTEE OF THREE.

The committee of three, having the subject of the abolition of slavery in the District of Columbia under their consideration, as directed by the Senate, report the following resolutions:

Resolved, That it is expedient in the public interest to prohibit the further importation of negroes into the Territory of the District of Columbia, after the expiration of the present term of Congress, and that the said committee be authorized to cause a bill to be introduced for the purpose, which bill shall be considered at the next session of Congress.

Resolved, That nothing in these resolutions is to be understood as affecting the rights of the States in regard to the slave trade, or as implying any intention to encroach upon the rights of the States in the matter of slavery.

Resolved, That the said committee be authorized to proceed to the further examination and consideration of the subject of the abolition of slavery in the District of Columbia, and to report their findings and recommendations to the Senate.

But something ought to be done. Miss Lucy, I fear, is quite right in wishing to see the matter looked into; and I must confess, myself, that the subject is one which I have long considered the most important of all that comes before us. I have felt that the question of slavery is a question which should be made public, and that the only way to do so is by the establishment of a national abolition society. And I have felt that the only way to do this is by the establishment of a national abolition society.

Dedicated to Abolition. — We are now in the midst of a great and glorious movement. The abolition of slavery is the work of the age. The abolition of slavery is the work of the generation. We are in the midst of a great and glorious movement.

Our country has long been in the habit of considering itself as a great and powerful nation. It is the country which has been the leader of the world. It is the country which has been the leader of the world.
