THE LIBERATOR.

To the Editor—

Colonization is a scheme of the most ungracious principles, and has been the means of attempting to reduce the negroes to an ignoble state of slavery.

The Agent of the Christian Society was charged with the management of the Society in the state of Massachusetts, and was instructed to make the Society's business a matter of personal gain. The Agent, by his conduct, has been a disgrace to the Society, and has received a large sum of money for his services. The Society should be reorganized, and the Agent removed.

SALVATION RECORD.

The WRECK OF THE HAVANA.

The wreck of the Havana, which was on its way from Africa to America, has caused great excitement. The ship was carrying a large cargo of slaves, and the loss of life is estimated at several hundred. The weather was very stormy, and the ship was at sea for several days before it was discovered that it was in danger. The crew made every effort to save themselves, but the ship finally went to pieces. The survivors were picked up by a nearby ship, and taken to a safe harbor.

LITERARY, MISCELLANEOUS AND MORAL.

SLAVERY, AS WE SEE IT.

By W. H. WORRALL.

When the question of slavery is mentioned in the course of any debate, it is usually with an air of mystery and mysticism, as though it were something which could not be discussed properly without a certain amount of sanctity and solemnity. But, in reality, it is nothing more nor less than a common and everyday question, which every man and woman should be at liberty to discuss and to express their opinions on.

The question of slavery is one of the most important questions that are now before the world. It is a question that affects every country and every race, and it is a question that concerns every man, woman, and child.

It is a question that has been, and still is, a source of much suffering and injustice. It is a question that has caused much pain and sorrow, and it is a question that has caused much blood to be shed.

But, in spite of all this, it is a question that must be faced and dealt with. It is a question that must be discussed and decided, and it is a question that must be settled.

It is a question that cannot be avoided, and it is a question that cannot be ignored.
