LETTER FROM PRESIDENT GREEN.

Mr. DEAR BROTHER GARRISON,

I am happy to learn from the letter I received from you that you have again been elected President of the Anti-slavery Society. I hope you will continue to be the leader, and that the organization will continue to advance in the same direction.

I am well aware of the great difficulties, both on the home and foreign fields, which confront you, and I have no doubt that you will meet them with your usual energy and courage.

I have always been one of your most sincere friends and admirers, and I trust that I may continue to be so, and that we may both live to see the day when the entire abolition of slavery shall be accomplished.

Yours sincerely,

The Ministry of Inquisition in the South.

The next meeting of the Abolition Society will be held at the Mecca Hall, on Thursday, November 12th. All members are requested to be present.

The subject to be discussed will be the "Ministry of Inquisition in the South," a subject of great importance, and one which demands the attention of every friend of freedom and humanity.

I have been informed that the government of the South is constantly engaged in the persecution of those who dare to speak in favor of the rights of man. The treatment of the free blacks and mulattoes is often most cruel, and thewhole system of slaveholding is based on principles of cruelty and injustice.

I shall do my best to secure the attendance of as many members as possible, and I trust that you will all come.

Yours truly,

LITERARY, MISCELLANEOUS AND MORAL.

MISCELLANEOUS.

GREAT FIRE AT CONSTANTINOPLE.—Constantinople, Sept. 4.—I am sorry to say that my correspondent has not received any news of the fire that was believed to have occurred yesterday. He had not heard of the attack by the British fleet, although it was stated that it was going to take place at the beginning of the week. The fire is said to have started in the city of Smyrna, and to have spread rapidly to the surrounding districts. It is feared that the whole of the city may be destroyed. The population is large, and the loss of life is expected to be great. The British fleet is reported to have arrived in the harbor, and to be ready to proceed to the attack immediately.

The Great Fire of Constantinople is one of the most disastrous events in the history of the city. It is believed that the cause of the fire was the negligence of the inhabitants, who had neglected to provide proper fire protection. The city is built on a very dry ground, and the buildings are of wood, which readily catch fire. The population is very large, and the loss of life is expected to be enormous. The British fleet is reported to be ready to proceed to the attack immediately.

DEATH OF THE INFANT OF THE PORTUGUESE EMPIRE.—The infant of the Portuguese Empire, who was born on the 8th of November last, died on the 10th of November at the age of two months. The infant was the son of the King of Portugal and the Queen of France. He was buried in the cathedral of Lisbon on the 12th of November.

FRIDAYS AND SATURDAYS.—We have before us a copy of "Fridays and Saturdays," a new work by Mr. W. C. Scott, of London, which has been published in the United States. It is a book of travel, and is devoted to a description of the Sundays of the world. The author has visited all theSunday resorts of Europe and America, and has written a very entertaining account of his travels. The book is well illustrated, and is sure to be popular.

VI. THE TRAFFIC IN SPIRITS AND THE ABSENCE OF SPIRIT AS A BOXING MATCH.—The traffic in spirits is a serious evil, and the absence of spirit as a boxing match is a very dangerous practice. It is necessary to take steps to prevent these evils, and to make the traffic in spirits as difficult as possible.

In conclusion, I would say that the traffic in spirits is a serious evil, and the absence of spirit as a boxing match is a very dangerous practice. It is necessary to take steps to prevent these evils, and to make the traffic in spirits as difficult as possible.
