$46,000.00 FOR SALE AT LAST.

ALL OUT AT LAST.

END OF THE AMERICAN CIVILIZATION SOCIETY.

ENGLAND.

THE EXTINCTION

AMERICAN CIVILIZATION SOCIETY,

By the order of the

Abolition Society, London.

By James G. Gannett,

Secretary and Treasurer.

The American Civilization Society, now declaring its existence

and operations ended, will, as a matter of policy, discontinue

all correspondence and further proceedings.

The object of the Society was to effect the abolition of slavery

in the United States, by showing the evil of the institution and

the iniquity of the laws which sustain it.

The Society was formed in February, 1855, and has been in

existence for about a year and a half.

The members of the Society are: James G. Gannett, Secretary

and Treasurer; John H. Gannett, Vice-President; and James

G. Gannett, Jr., President.

The Society has been supported by contributions from

private individuals, and by the sale of its publications.

The Society has published a number of pamphlets and tracts,

and has also issued a newspaper, called the "American Civiliza-

tion Journal."
A PROPOSITION.

In the course of the preceding number of this paper, I approached the subject of the American Colonization Society. I now proceed to the subject of the American Anti-Slavery Society. The proposition I have to make is, that we should establish a colony in Africa, and send thither a large body of free negroes, and of those who have been emancipated from the bonds of slavery. This is a subject of great importance, and one which deserves the attention of all who are interested in the welfare of mankind. The proposition I make is not new, nor is it original with me. It has been repeatedly urged in the course of the preceding number of this paper, and it has been urged by many others, both in this country and in Great Britain. The proposition I make is, that we should establish a colony in Africa, and send thither a large body of free negroes, and of those who have been emancipated from the bonds of slavery. This is a subject of great importance, and one which deserves the attention of all who are interested in the welfare of mankind. The proposition I make is not new, nor is it original with me. It has been repeatedly urged in the course of the preceding number of this paper, and it has been urged by many others, both in this country and in Great Britain.

BOSTON, Feb. 26, 1853.

THE AMERICAN COLONIZATION SOCIETY.

The proposition I have to make is, that we should establish a colony in Africa, and send thither a large body of free negroes, and of those who have been emancipated from the bonds of slavery. This is a subject of great importance, and one which deserves the attention of all who are interested in the welfare of mankind. The proposition I make is not new, nor is it original with me. It has been repeatedly urged in the course of the preceding number of this paper, and it has been urged by many others, both in this country and in Great Britain. The proposition I make is, that we should establish a colony in Africa, and send thither a large body of free negroes, and of those who have been emancipated from the bonds of slavery. This is a subject of great importance, and one which deserves the attention of all who are interested in the welfare of mankind. The proposition I make is not new, nor is it original with me.
