"Come, let us go up to the house of the Lord; to the new chambers, even to the house of our God: let us go to worship at his mercy-seat." Psalms, 122, 1.

The following is a list of the Acts passed during the legislative session of the New England States during the present year:

A NEW SCHEME.

Afro-American Re-Colonization Society.

Mr. Garrison—Permit me through the agency of your journal, to add my testimony to those already addressed, to impress upon the American public the importance of the great subject of Re-Colonization, as it has been recently brought forward by the Afro-American Re-Colonization Society. The object of this organization is to establish a colony of free colored people in some part of Africa, where they may have the opportunity of forming a new and independent nation. The society has already purchased a large tract of land in Liberia, and is now engaged in the construction of a city and other public works. It is hoped that this colony will eventually become a strong and independent state, and will be a source of great benefit to the whole nation. The society is now in want of funds, and I trust that the American public will assist it in its noble work. The money contributed will be devoted exclusively to the advancement of the cause of Re-Colonization, and will be watched over by a board of directors, consisting of the most influential men of the country. The society is well established, and has a large number of subscribers. I have myself contributed to this good work, and I heartily recommend it to the attention of my fellow citizens. The time is not far distant when we shall see a new and independent nation rising out of the darkness of slavery, and filling the world with the light of freedom.

[From the Philadelphia Christian Advocate.]

The Third head of the legislature, the Governor of the State, has ordered the following proclamation:

"I have been informed of the distresses of the people, and the necessity of the public credit. I therefore hereby declare that I will do all in my power to promote the interests of the State, and to preserve the peace and order of the community. I will take care that the laws are properly executed, and that justice is dispensed fairly to all. I will not suffer the public funds to be misappropriated, nor will I tolerate any disorderly conduct. I will do all in my power to promote the welfare of the State, and to preserve the peace and order of the community. I will take care that the laws are properly executed, and that justice is dispensed fairly to all. I will not suffer the public funds to be misappropriated, nor will I tolerate any disorderly conduct. I will do all in my power to promote the welfare of the State, and to preserve the peace and order of the community."
