REVIEW OF THE EVENTS OF THE WEEK.

THE LIBERATOR.

BOSTON, MASSACHUSETTS.

Mr. Parker said the gentleman from New York had mentioned some things that he thought were of consequence in the bill. He had stated that the bill was the same as the one which was introduced last year, and that it was the same as the one which was introduced the year before. He had also stated that the bill was the same as the one which was introduced the year before that. Mr. Parker said that the gentleman from New York was right in saying that the bill was the same as the one which was introduced last year, and that it was the same as the one which was introduced the year before. He had also stated that the bill was the same as the one which was introduced the year before that. COPYRIGHT DISPROVED.

The Copyright Question has been managed with the greatest prudence and delicacy by the Committee of the Literary Copyright Congress at a meeting yesterday.

At the Committee's request, I have been called upon to express an opinion upon the subject.

NOTE.

From the committee of the present volume of the Literary Congress, I have received the following letter:

"Dear Sir,—We have been instructed to request you to state the reasons for the exclusion of our publication from your classification of works copyrighted in the United States, under the act of Congress of 1831.

The publication was not copyrighted because it was not considered to be an original work of literary composition."

In adverting to the question of copyright, it is important to bear in mind that the object of the act was not to secure a right to the exclusive possession of the work, but to promote the progress of science and the arts, by securing the author a monopoly of his creation, for a limited time, during which he is entitled to the exclusive enjoyment of the profits resulting from its publication.

The present law is said to be defective in some respects, and there is a strong feeling in favor of legislation to remedy the defects and make it more efficient.

SALOON TOLL.

From the New York Clipper.

"The saloon toll law has been in operation for some time, and its effect is already perceptible. The number of saloons in the city has been reduced from 300 to 200, and the amount of revenue collected from them is proportionately increased. The saloon keepers are apprehensive of the law, and are willing to pay the toll in order to avoid the inconvenience of its enforcement."

COAL MINES.

From the New York Times.

"The coal mine at Easton, Pennsylvania, has been opened for business. The mine is situated on the Susquehanna River, and is supplied with water by a tunnel which is 1500 feet long. The coal is of fine quality, and is expected to bring a high price in the market."

ANNUAL MEETING OF THE MARCH.

From the New York Herald.

"The annual meeting of the Marches is to be held in the great hall of the city, on the 15th of this month. The speakers will be Mr. Thomas Jefferson, Mr. John Adams, and Mr. Alexander Hamilton. The subject of the meeting is to be the discussion of the principles of the Constitution of the United States."

THE POET'S GUILD.

From the New York Daily Tribune.

"The Poet's Guild is to be held in the hall of the Literary Society, on the 20th of this month. The speakers will be Mr. Edgar Allan Poe, Mr. Walt Whitman, and Mr. Henry Wadsworth Longfellow. The subject of the meeting is to be the discussion of the poetry of the present day."
