THE LIBERATOR.

The abolition of slavery in the United States has been a topic of discussion for many years. This issue is often debated in Congress and elsewhere, with the abolitionists arguing for the freedom of all slaves and the northerners opposing it. The debate continues to this day, with some still advocating for the abolition of slavery and others against it.

ENGLAND.

GREAT ANTI-SLAVERY MEETING.

At the Hall of Commons, held on the Town Hall, Birmingham, on Saturday last, a great meeting of the antislavery society of England was held.

The chairman, in opening the business of the evening, said that there were not many meetings of this character in which so much had been done to advance the cause of humanity as in this country. The meeting was called to order by Mr. Bell, and the business was conducted by Mr. B. Bell, who was in the chair.

Many resolutions were passed, and many speeches were made in favor of the cause of abolition. Among the most prominent were those of Mr. G. B. S. and Mr. J. B. B. Both of these gentlemen are well known as advocates of the cause of abolition.

The meeting was adjourned sine die.

MANUSCRIPT FROM IRELAND.

MANUSCRIPT FROM THE RHODE ISLAND LEGISLATURE.

The Legislature of the state has recently passed a law authorizing the removal of all existing laws in favor of slavery. This is a very important measure, and it is hoped that it will have a good effect on the slaves.

The law provides for the gradual abolition of slavery, and it is hoped that it will be carried out in a just and humane manner. The legislature has also provided for the education of the slaves, and it is hoped that they will be able to acquire a knowledge of their rights and duties.

The law has been signed by the governor, and it is now in force. The slaves are now free and are entitled to the same rights as the free people of the state.

COMMUNICATIONS

The American Board of Commissioners of Foreign Missions has just published a letter from one of its missionaries, stationed at Bombay, to their agent in that city, in which he states that the mission is doing well, and that the progress of Christianity is by no means stationary. To the Agent of the American Board of Commissioners of Foreign Missions, at Bombay:

Sir, - I have the honor to forward you a copy of the last report of the mission, which was published in the American Missionary last year. The report contains a full account of the work of the past year, and I have no doubt that it will be of great interest to the Board. TEXAS—AGAIN.

It is true of the United States, a few days since, that the War Department approves the plan for the resumption of the war against Mexico, as being in accordance with the laws of the Union, the laws of God, and the laws of nature. But the truth is that the War Department is not now in any sense a war department, and that the President of the United States, as the head of the government, is the only officer of the United States who is authorized to declare war. The President is not authorized to issue a proclamation declaring war, or even to consent to war, without the concurrence of Congress. The President is, therefore, powerless to declare war, and is not authorized to declare war, without the concurrence of Congress.
