COLORADO AMERICANS—THRUST OUT TO ZAMBIANA.

In the last issue of The Liberator we published an account of the proceedings of a public meeting recently held in New York City, at which a deputation waited upon the Governor of New York, the Hon. Horatio Seymour, and presented to him a petition style as follows:—

"To the Hon. Horatio Seymour, Governor of New York State:—

"We, the undersigned colored male citizens of New York State, do hereby solemnly protest against the mode of trial, and in justice to the colored population of this state, pray, as a matter of right, to be tried by a jury of our own race. We hereby further protest against the laws of the state, which enable colored persons to be tried and convicted by a white jury, and we believe that the courts of justice in this state should be opened to colored persons, and that we should be admitted to the practice of law in this state. We further protest against the laws of the state, which enable colored persons to be tried and convicted by a white jury, and we believe that the courts of justice in this state should be opened to colored persons, and that we should be admitted to the practice of law in this state. This we do with the sincere hope that the state will hear our appeal, and that justice will be done in this matter. We have the honor to be, etc.,

"(Signature)"

The petition was received by the Governor, and the deputation, in reply, was assured that their wishes would be presented to the Governor, and that the Governor would do all in his power to have their rights recognized. The petition was also presented to the Governor of New York City, and to the Mayor of New York City, and was received by both with the same assurance.

The Liberator.

July 30, 1852.
The Liberator

LETTER NO. 12.

Dedicated to the Improvement of the Human Mind and Character, and the Peace and Safety of the Union.

To the Editor of The Liberator.

I am well aware that the subject of my letter is a delicate one, and that my words will be read with a critical eye. But it is a subject which, to me, is of the highest importance, and I cannot refrain from expressing my thoughts. The question at hand is the abolition of slavery, and the treatment of African Americans in the United States.

There are those who argue that the abolition of slavery is a radical idea, and that it would lead to chaos and unrest. But I believe that the opposite is true. The abolition of slavery would bring about a more just and equal society, where all people are treated with dignity and respect.

I have seen the suffering that slavery inflicts on the victims, and I cannot remain silent. I believe that it is our moral duty to work towards the abolition of slavery, and to ensure that all people are treated fairly and justly.

I am committed to this cause, and I will continue to work towards its realization. I urge others to join me in this important struggle.

Sincerely,

[Your Name]
