No Union with Slavery!

Our Union is the Union of the States of which the South is a portion, and it is to be expected that the State of South Carolina will be the first to go out of it. The people of the North are not to be made to bear the burden of this. They are to be made to feel that they have a right to be considered as part of the Union, and that they have a right to be protected in their property and their persons, and that they have a right to be protected in their institutions.

The following is a communication from the people of the North, which is published in the following newspapers:
