REFUGE OF OPPRESSION.

From the Philadelphia Inquirer.

The American system of colonization is understood to mean the emigration of white people to Africa to live in the midst of the negroes. The advocates of this scheme are uniform in denouncing all other American systems of colonization, and in recommending as a model the settlements of the Cape Verde Islands. The Cape Verde Islands, however, are not free countries, but are colonies of Portugal, and the negroes are held as slaves. The settlers in the Cape Verde Islands are chiefly Portuguese, and the negroes are subject to the laws and regulations of the Portuguese government. The advocates of the American system of colonization, therefore, cannot claim that it is a model of colonization, as it is not a free country, and the negroes are held as slaves.
