THE LIBERATOR.

APRIL 25.

HUSBANDS AT NEWPORT.

—In the section of the city called 'The Battery,' the Federal Government has decided to establish a military garrison for the defense of the harbor, and to erect a fort upon the upper portion of the Battery, which will be named in honor of General Washington. The fort will be built of masonry, and will be supplied with artillery and other necessary provisions. It will be garrisoned by a small body of regular troops, under the command of a brigadier-general. The plan of the fort has been approved by the Secretary of War, and the work is to be commenced at once. The battery is one of the most important positions on the American coast, and it is expected that the fort will be completed within a year.

LATE FROM KANSAS.

—The news from Kansas has been received in Washington, and it is stated that the Dakota Indians have been notified that they must evacuate the country within thirty days. The Indians have been living in the territory since 1860, and they have been in constant conflict with the whites. The government has been trying to settle the Indians on reservations, but they have refused to move. The Indians have been given until May 30th to leave the country. If they do not comply, the army will be sent in to enforce the order.

NEW YORK.

—The New York newspaper, the Independent, has published an article on the subject of the new system of education in the city. The article states that the new system is based on the idea that education should be a free and open institution, and that all children, regardless of their social position, should have the opportunity to receive a good education. The article suggests that the new system will be a great improvement over the old system, which was characterized by a high degree of exclusiveness and discrimination.

PENNSYLVANIA.

—The Pennsylvania legislature has passed a bill providing for the establishment of a new system of education in the state. The bill provides for the creation of a board of education, consisting of five members, who will be appointed by the governor. The board will be charged with the responsibility of organizing and supervising the schools in the state. The bill also provides for the establishment of a system of free schools, and for the support of a system of normal schools and colleges.

FEAR OF INFLUENCE OF NEWMANNISM.

—The Newmmanite movement has been gaining ground in New York, and it is feared that the influence of the movement may extend to other parts of the country. The movement is characterized by a strong emphasis on the teachings of the New Testament, and it has been gaining many adherents among the lower classes. The movement is opposed by the Established Church, and it is feared that it may undermine the authority of the church and the clergy.
