THE LIBERATOR.

THE RIGHTS OF WOMAN.

By William G. balloon.

The title of the present article is one of the most important and of the highest interest. It is a fact that the rights of woman are in many respects more important than those of man. Woman is the mother of all human beings, and as such she has a right to be considered as the head of the family. The present article is a protest against the unjust treatment of woman, and is a call for her rights to be respected.
