REFUSE OF OPPRESSION.

ABOLITION APPEALER.

The revival of the Abolition cause is the result of the trial of the Dr. Channing case. The party who brought the case to the bar were determined to set a precedent for the abolition of slavery. It was the first step in a long series of steps that will lead to the abolition of slavery. It is a great step in the right direction.

The United States Government looks on the Abolitionists as a Liberal party. The party is looking forward to the time when they will have a chance to express themselves. The party will continue to work for the abolition of slavery.

SELECTIONS.

MOSSES MINISTER TO ISRAEL.

The Dr. Channing case was a great step in the right direction. It was the first step in a long series of steps that will lead to the abolition of slavery. It is a great step in the right direction.

The Liberator.

The author that is to be considered as the first writer of the American anti-slavery movement was Nathan Colburn. He wrote under the pseudonym of "Saltus," and his most famous work was "The Liberator," a weekly newspaper published in Boston from 1831 to 1832. The newspaper was supported by a group of abolitionists known as the "Liberator Societies," which sought to educate the public about the plight of enslaved people and to promote the immediate and total abolition of slavery.

The newspaper was known for its passionate and polemical writing, and its contributors included many of the leading abolitionists of the time, such as William Lloyd Garrison, Samuelistsu, and John Brown. The newspaper was not just a means of propaganda, but also a way of organizing and mobilizing the abolitionist movement. It was also known for its radical stance, and its editorials often called for immediate and radical action to end slavery.

Despite its radical stance, the newspaper was able to gain a wide readership and influence, and it played an important role in the abolitionist movement. Its legacy continues to this day, as it was one of the earliest and most influential voices in the struggle against slavery.
