REGISTRATION IN JAMAICA.

The Right of Living.

We have been off the subject of slavery in Jamaica for a time. The negroes there are in a deplorable condition. It is true they are nominally free, and have a right of voting, but this is only in form. The real power is in the hands of the planters, and they are as arbitrary and oppressive as in any part of the world. The negroes live in degrading poverty, and are treated with the greatest brutality. The whites are the only class of people who can live comfortably in the island, and they are supported by the negroes, who are reduced to the condition of slaves. The negroes are the property of the whites, and are treated accordingly. They are whipped, flogged, and punished for the slightest offense. The negroes have no protection, and are at the mercy of the whites. The negroes are the property of the whites, and are treated accordingly. ANNIVERSARY OF WEST INDIA EMANCIPATION.

The anniversary of British West India Emancipation, on the 1st of August, is approaching. The Emancipation is the most momentous event that has ever occurred in the history of that Archipelago. It is the occasion on which the world has come to read the mark of the dictator. It is the occasion on which the world has come to see that the British Empire has been cast in the mold of the American Republic. It is the occasion on which the world has come to recognize the greatness of the West Indian people.
