REFUGE OF OPPRESSION.

Mr. S. THOMPSON, NANTUCKET.

I am an Nantucket-man, and a great umbilical cord runs from me to the unceasing popularity of Mr. Charles Sumner. I am in constant communication with him, and am always ready to do him justice. In the following extracts from my recent correspondence with him, I shall endeavor to show that he is not a man of weak and irresolute character, but that he is a man of great moral power, and of a high standard of political integrity.

The Honorable Mr. Sumner, in his recent speech in the Senate, has expressed his opinion that the abolition of slavery is necessary to the prosperity of this country. He says: "The abolition of slavery is necessary to the prosperity of this country, because it is the foundation of all political stability, and the basis of all national union. It is the only true foundation for a free government, and it is the only true foundation for a free people. It is the only true foundation for a nation that is to be free and to be independent."

I am fully in accord with Mr. Sumner on this point. The abolition of slavery is necessary to the prosperity of this country, because it is the foundation of all political stability, and the basis of all national union. It is the only true foundation for a free government, and it is the only true foundation for a free people. It is the only true foundation for a nation that is to be free and to be independent.

THE LABOR QUESTION IN JAMAICA.

By J. Thompson, Esq.

The labor question in Jamaica is a very important one, and it is one that demands the attention of the Government. The laborers in Jamaica are in a very bad condition, and they are suffering from want and hardship. The Government, therefore, should take steps to remedy this situation.
