NEW YORK.

November 10, 1854.

The recent disturbances in the East have created a great deal of excitement in New York. The city is now in a state of great agitation, and the streets are crowded with people. The news of the disturbances has caused a considerable amount of alarm, and many people are afraid that the trouble may extend to this city. There is much speculation about the cause of the disturbance, and some believe that it is due to the political parties. Others think that it is caused by the recent strikes among the laboring classes. There is no doubt that the disturbances will continue until some satisfactory arrangement is made between the parties.
