THE LIBERATOR.

LETTERS FROM NEW YORK.

Mr. York, Jan. 31, 1858.

Sir,—I am in great favor of Senator Douglas's resolution, and I believe it will do more good than any other measure that has been proposed. The demand for the emancipation of the slave is becoming more general every day, and I think the time is fast approaching when the question will be settled by a strong and able leader. I have been looking forward to the results of the election, and I hope that the candidates who are in favor of the abolition of slavery will be elected. I think it is only just that the people should have a voice in the matter, and I hope that the candidates who are in favor of the abolition of slavery will be elected. I have been looking forward to the results of the election, and I hope that the candidates who are in favor of the abolition of slavery will be elected. I think it is only just that the people should have a voice in the matter, and I hope that the candidates who are in favor of the abolition of slavery will be elected.

He is a strong advocate of the immediate emancipation of the slaves, and has written extensively on the subject. He is also a skilled orator, and his lectures are always well attended. In this particular lecture, he discusses the merits of his own method of education for the freedmen, and the importance of providing them with the tools they need to succeed in life.
